

**REMARKS**

Applicant respectfully requests entry of the Amendment to claim 17, which is made in response to the Examiner's Amendment.

**Examiner's Amendment**

The Examiner amended claim 17 by Examiner's Amendment to add the following language: "generating a context-specific error code if the data harvesting script fails to successfully extract data from the web page". In the amendment above, Applicant has modified the Examiner's language by inserting "first" in two places to clarify the claim language. The modified language reads: "generating a context-specific error code if the first data harvesting script fails to successfully extract data from the first web page".

Claim 17 identifies a "first data harvesting script" and a "second data harvesting script". The Examiner's Amendment refers to "the data harvesting script", which is unclear as to whether it's the first or second data harvesting script. By amending claim 17 to include "first", the language is clarified.

Similarly, claim 17 identifies a "first web page" and a "second web page". The Examiner's Amendment refers to "the web page", which is unclear as to whether it's the first or second web page. By amending claim 17 to include "first", the language is clarified.

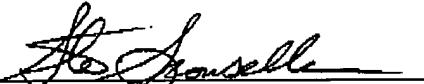

No other changes were made to the claims.

**Conclusion**

Applicant respectfully requests entry of this Amendment to claim 17. Should any matter in this case remain unresolved, the undersigned attorney respectfully requests a telephone conference with the Examiner to resolve any such outstanding matter.

Respectfully Submitted,

Date: 6-17-05
